Art Unit: 1741

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach the composition as set forth in applicants instant claims, wherein a filler having both hydrophobic and hydrophilic surface regions occur. The filler made with a balance of both hydrophobic and hydrophilic regions, give the filler a two dimensional structural upon drying on the surface to which it is applied. This two dimensional structure excludes red blood cell , so that when the composition is used on a test strip, the composition is insensitive to the hemocrit of the patient.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Oath/Declaration

It does not identify the citizenship of each inventor.

The citizenship of the inventors David Scott and Geoff Hall has been omitted. Correction is required.
